FAMILY FOUNDED

OWNED AND OPERATED

Foodynamics is dedicated to supplying our partners with the highest quality private-labeled, freeze-dried, clean, whole food products for pets. We offer a broad catalog of freeze-dried inventory and custom options.

We assist our partners with a wide range of packaging and brand development options.

SMALL BUSINESS

**FOR
SMALL BUSINESS**

HUMAN GRADE

Every product we offer comes from USDA or FDA inspected facilities. We maintain close, personal connections with our suppliers.

FOOD SAFETY

We ensure that our products are sourced, produced, and handled according to the highest possible SQF standards.

YOUR PARTNERS

We maintain profound, individual relationships with our clients. Our aim is to assist each client in reaching their highest level of success.

OUR STORY

Our story is your story of how we differentiate your products by adhering to premium sourcing and food safety.

FREEZE-DRIED WHOLE FOODS FOR PETS

The Foodynamics team are experts in the science of lyophilization, also known as freeze-drying, the process of removing moisture from a product without compromising the quality or nutritional profile. The color and texture of our freeze-dried products are extraordinary because of our in-house proprietary adjustments to the lyophilization process making us leaders in the freeze-dried industry.
